

Spiritually High

Words and Music By: Ed Newman and Dale Leonard

Look at you yourselves all speeding wasting life away
Going from pills to pleasures dying day by day
Haven't you ever wondered where its' gonna stop
You won't find the answer in the next pill that you pop.

Chorus:

Give your life to Jesus come on and let Him take control
Check into the Bible let it ease your troubled soul.
Let Him be the master and let the Bible be your guide
Give your life to Jesus and be spiritually high.

Woe be it unto you that do not heed these words

For you can never say that you have never heard

About the Jesus who died to set you free

The One who loves us and died on Calvary's tree
