

Success

Words and Music By: Ed Newman

Worked for a man, and he once came to me, told me success meant making lots of money
From another man came another point of view, Success depended on how much land one man could accrue.

Money will pay you bills, lands a temporary place to rest
Don't expect these in Gods formula For success
Our time on earths too short to be pursuing foolish goals
For what would it profit a man if he gained the whole world and loses his soul

Now I know a husband he worked his whole life
Just to earn social status, which meant success to his wife
Heard tell of a man through one of his friends
To him success meant owning a brand new car, a brand new Mercedes Benz

Now status may get you respect and a benz from east to west
Don't expect in Gods formula for success
Our time on earth is too short to be pursuing foolish goals
For what would it profit a man if he gained the whole world and loses his soul

Now I know a man and He died upon the cross
He rose up again to save us from being lost
Jesus is that man, some know him as Christ
By believing on his Name, we receive eternal life

By following His example By persevering to the end
Success you'll find quite ample, in the Bible my friend
Our time on earths too short to be pursuing foolish goals
For what would it profit a man if he gained the whole world
And loses his soul, Don't lose your soul don't lose his soul
