

Return to Jesus

Words and Music By: Ed Newman

Hey all my brothers and friends
Why do you keep on keeping on with you worldly whims?
Don't you know I've been there before and I know what's in store
And the simple truth is, without Him out just can't win, just can't win

All your lives you living, you just don't seem to care
You put Christ on a shelf and forget He's there.
Why go on fooling yourselves, you're hurting yourselves
For sin will bring punishment and the fruit of your sin you'll bear, you will bear

Chorus

Return to Jesus. Recapture your first love.
Get back to the Bible, Return to God

Living a life after pleasure may seem cool for a while
Even though your lust of the flesh may seem right in style
There's a way that seems right unto man, but is death in the end
So I'd urge you brethren, return to Christ once again, my friends

2x
